DAILY HEALTH SCREENING APP FOR EMPLOYEES
Quick Starter For Simple Reporting

HOW CAN OUR SCREENING APP HELP YOUR ORGANIZATION GET BACK TO THE OFFICE?

Convenient Self-Screening
Your employees can self-screen while they’re at home or when they get to the office.

Customizable Questionnaire
You can tailor the screening options for your enterprise.

Actionable Data
Use screening results to inform your daily plan of action to keep your organization healthy and safe.

HOW DOES IT WORK?

Employees can complete screening questions at home before leaving for work.

The employee can safely go to work.

The employee should stay at home. HR/management is alerted so they can act accordingly.

Employees responses go into a database.

No exposure or symptoms?

Recently exposed or with symptoms?

June 1, 2020
Based on your response, you may come into the office today.

Based on your response, you should stay home today.

You may retake the screening tomorrow to see if you can come into the office at that time.

If you answered incorrectly, please retake the survey now.
HOW CAN OUR SCREENING APP HELP YOUR ORGANIZATION GET BACK TO THE OFFICE?

---

HOW DOES IT WORK?

Employee responses go into a database.

1. I have not nor has anyone in my residence, come into close contact (within 6 feet) with someone who has a suspected or confirmed COVID-19 diagnosis in the past 14 days either at home or on a job site, etc.
2. I have not had a fever (greater than 100.4°F) OR symptoms of lower respiratory illness such as cough, sore throat, shortness of breath, or difficulty breathing in the past 14 days.
3. I am not currently experiencing a fever (greater than 100.4°F) OR symptoms of lower respiratory illness such as cough, sore throat, shortness of breath, or difficulty breathing.

Employees can complete screening questions at home before leaving for work.

The employee can safely go to work.

The employee should stay at home. They cannot access the office. HR/management is alerted so they can act accordingly.
